

Date: 29 January 2024

To whom it may concern:

I hereby confirm that **International Center for Geotechnical Studies** was contracted by Tetra Tech International Development B.V. (formerly WYG International B.V), the Joint Venture lead delivering the EIB - Economic Resilience Initiative - Infrastructure Technical Assistance - Southern Neighbourhood (ERI-ITA-SN) programme (TA2017141 R0 ERI).

International Center for Geotechnical Studies were contracted on the following sub-project:

- **Support to project implementation: Technical Assistance to Jordan Valley Water Resources Efficiency Project (Jordan)**, (a sub-project under the EIB – Economic Resilience Initiative – Infrastructure Technical Assistance – Southern Neighbourhood programme (TA2017141 R0 ERI)).

International Center for Geotechnical Studies conduct detailed geotechnical surveys and tests for the following:

- Conveyor: type and properties of subsurface material to a depth of 1.0m below the bottom of the pipeline.
- Stream/ Wadi crossing (concrete bridges): conditions (depth, foundation material treatment, bearing capacity, settlement, excavation, precaution measures....).
- Storage ponds: type of material at the site of the proposed storage ponds cut slopes and slope of the embankment. Usability of the excavated material.

The contract duration was from 7 March 2022 to 13 June 2022. The total value of the services delivered was EUR 17,168.

Yours faithfully

GRAEME BRODIE
